Chapter Theme and Goals.

The theme of Portland 500 is centered on the activities of an Auto Race circuit. Specials will attempt to re-enforce the theme. Suggestions for specials are welcomed from any member and will be considered. The primary goal of the Portland 500 Chapter is to give an incentive for Amateur Radio Operators to use the 10 meter band even during low sun spot activity. A secondary goal is to have fun in our common hobby.

Membership Requirements:

1. Verifiable 10-10 number in 10-10 International.
2. A SASE for basic number or request sent via Email to CM.
(See the membership certificates - sample can be found on the web site.)

Specials:

Specials are created periodically to give a boost of energy to the attentiveness to the chapter. Hopefully we will have several specials through the calendar year, especially around Memorial Day.

Ambassador Special:

It has been created to augment those that have the opportunity to travel and wish to share the Portland 500 Chapter to the entire Ham population. It is called the Lead Car Special. To achieve this award you must record 10 contacts while you are:

1. Mobile anywhere.
2. Using a fixed or temporary location outside your home county.

Ambassador Special:

10 points will be awarded to those you give your Lead Car# special out over the air when you are operating under the same conditions that it was awarded.

1. Mobile anywhere.
2. Using a fixed or temporary location outside your home county.

Once per calendar month. To claim the lead car special, claimants must record your county and state when you tell them the lead car seal number.

Example: March 3,1999, Lead Car #3, Multnomah County, OR, W6NCK, P500# 14LHCM.
